

Hello there, I am the secretary of Chase and District Fish and Game Club and the director of the Trap and Skeet department. Our club is looking for a Junior or youth size shotgun. We are trying to stay within a certain budget and are hoping to find a used light over and under 20 gauge with about a 12.5 inch trigger pull. We are trying to find a gun for juniors to use. We already have a 14 inch pull 20 gauge for teens. We are trying to find something smaller than that. We would also entertain a semi-auto 20 gauge or a pump – depending on the price and the size. We could go new if it is a good price. A new over and under is probably out of our price range so that is why we are really hoping to find used. We are looking for a gun which we can use to teach juniors Trap and Skeet. It won't be used that often – but we have discovered the other 20 gauge we have is way too long in the stock and barrel for the smaller youth to use safely. We would really appreciate it if you could get back to us if you have anything that you think could be useful for our club for a reasonable price. Perhaps you have a member who might have a gun for sale. We are a non-profit organization. My email is helendalin@hotmail.com. Thank you Helen Dalin
